WORLD WAR TOONS

Los Angeles, CA

Reload Studios has released its cinematic announcement trailer for World War Toons, first seen exclusively at last month's VRLA Spring Expo.

The tongue-in-cheek video tells the tale of doomed German soldier 'Helmut' as he attempts to turn the tide of conflict in his favor before meeting his ultimate fate.

Founders James Chung and Taehoon Oh cite accessibility and 'laugh out loud fun' as the key tenets in Reload's whimsical, toon inspired first person shooter and tank combat game.
